PIMA INDEX

Volume 60 Numbers 1-12
January-December, 1978

This general index of articles and their authors, editorials, and association news is arranged alphabetically under four headings: Articles, Authors, Editorials, and Association News. Material published monthly under department designation, such as Industry Events, New Products and Literature, People in the News, Paper Pulse and its predecessor, Taking Note, is not indexed.

ARTICLES

A humanistic approach to the Undermanaged Work Syndrome, (H. Griffin Ewing), No. 9, 31-33.

American Productivity Center reports operations well underway with petroleum and pulp and paper the first industries to be studied, No. 2, 30-31.

API and Fibre Box Association sponsor Employee Relations Conference, No. 3, 31-33

A potential approach to maintenance accounting, (Morris R. Rivers and Rolf W. Pagels), No. 1, 20-22.

Assault on the corporation, (Robert Bork), No. 6, 25-27, 29.

Bark drier saves money and energy, No. 9, 18.

". . . But the computer can't make good paper from bad pulp!", (Larry L. Thompson), No. 3, 21-25.

Chemical treatment maintains Rising Papers' quality art papers, No. 5, 15-16.

Chemicals—costly and going up, (Larry L. Thompson), No. 5, 20-22, 24.

Computer control=predictable uniformity=profits, (Larry L. Thompson), No. 4, 19-23.

Computers and the paper industry—yesterday, today and tomorrow, (Larry L. Thompson), No. 2, 39-44.

Contaminated groundwater cleaned by granular carbon system, (Ralph Smith), No. 12, 25-26.

Cooperation—the key to good maintenance, (Glen Witters), No. 4, 28-29.

Corrosion—the relentless enemy, (Thomas P. Wilhelm), No. 10, 24-26.

EEO—Its your job, (Marta Archer), No. 5, 12-13.

Employment of the handicapped, (Larry Steinhauser and Louis Vieceli), No. 10, 17-20, 22.

Energy —A PIMA staff report, No. 1, 11-13.

Energy—Costly and going up, (Larry L. Thompson), No. 6, 41-44.

Environmental controls and the paper industry, (Douglas M. Costle), No. 1, 14-16.

Escanaba's environmental systems: the first five years, (Jerry L. Parr), No. 9, 14-15.

Executive decision: "What's the bottom line?", (Larry L. Thompson), No. 7, 21-25.

$50 million program to help Midtec meet its demands, No. 5, 11.

Good Employee relations begin with communication, (Norman Black), No. 11, 24-27.

Government controls and the impact on energy, (R. J. Shinners), No. 1, 34, 36-37.

Handling caustic materials—How to safely manage caustic materials in the pulp and paper industry, No. 4, 31-33

How to win the race with time, (Peter Wuerl), No. 12, 20-21.

Improving the effectiveness of suction roll shells, (Dr. Guenther Armbruster), No. 7, 31-33.

In-situ machine repair, (Dan Hobbs), No. 7, 16-17, 20.

Instructional training meshes with paper industry's acceleration, (John Jensen), No. 12, 16.

Looking at the positive side of energy regulation, (Knut Grotterod), No. 4, 15-16, 18.

Maintenance self-improvement through involvement with engineering, (James G. Fox), No. 8, 30-31.

Managing the stages of data processing growth, (Dr. Richard L. Nolan), No. 10, 26-30.

Mead Paper's decision to install a 1500 psig recovery boiler, (Wallace Goode), No. 1, 27-29.

Mill-supplier approach improves paper machine economics, (Steve Collins and Dave Tomlinson), No. 12, 28-30, 32.

Modern energy concepts in press design and operation, (J. O. Sparks), No. 2, 22-28.

Much ado about dioxides and particulates, (Foster P. Doane), No. 7, 27-30.

PAPERCHEM, a special feature at PIMA's June Conference, (Marta Archer), No. 5, 18.

Paper machine fine tuning a reversal of earlier trends, (W. R. Clontz), No. 9, 26-28.

People and the computer, (Michael J. Ford and Michael E. McCabe), No. 8, 11-15.

PIMA visits Grand Rapids, Minnesota, (Marta Archer), No. 6, 31-34.

PIMA visits Pine Falls, Manitoba, (JoAnne Burkart), No. 3, 16, 18-20.

PIMA visits Spring Grove, Pa., (JoAnne Burkart), No. 2, 47-50.

PIMA visits Pine Falls, Manitoba, (JoAnne Burkart), No. 3, 16, 18-20.

PIMA visits Spring Grove, Pa., (JoAnne Burkart), No. 2, 47-50.

Pulp and paper productivity plunging! New-style supervision the only answer, (Carl E. Podlasky), No. 6, 47-48, 50-51.

Quick installation is a key to Weyerhaeuser's control system, (Curtis Barnebey), No. 12, 13.

Raw material for the industry's future, (George C. Cheek), No. 1, 6-8, 10.

Rumpelstiltskin is my name—Productivity is my game, (Alice Dieter), No. 8, 16-17, 21.

Screening thermomechanical pulp—a process evaluation method, (S. W. Hooper), No. 4, 24-26.

Securing our future, (John H. Kuhn), No. 6, 36-37.

Self-organized work groups increase workers' satisfaction, (H. Griffin Ewing), No. 11, 28, 30.

Sulfite recovery process keeps mill one step ahead of EPA, No. 11, 18.

Teaching the first line supervisor to be a good teacher, (Sarah Gaylord), No. 9, 29-30.

The Boiler Operator—"a forgotten man", No. 6, 38-39.

The closed cycle concept kraft mill at Great Lakes Paper Co., Ltd., (John A. Isbister, Douglas W. Reeve, and W. Howard Rapson), No. 8, 23-29.

The Inflation Factor—PIMA exclusive interview with Beryl W. Sprinkel, (A. Stewart Hale and JoAnne Burkart), No. 1, 17-19.

The mill manager; front line problem solver, No. 10, 11-14.

The performance audit as a means of promoting company cohesiveness, (H. Griffin Ewing), No. 12, 22-24.

The pulp market, (William H. Vaughn), No. 7, 11, 15.

The Solid Waste Disposal Tax in perspective, (Carol L. Raulston), No. 2, 51-53.

Titanium and its use in the pulp industry, (Robert L. Kane), No. 6, 21-22.

TMP at Bowater Carolina Corp. reduces pressroom breaks, (Jackson L. Lansford), No. 11, 14.

Training program a success at Boise Cascade Canada Ltd.'s Fort Frances mill, (Iain G. Calder), No. 11, 19-23.

Training and safety are key elements in CFI's $100 million expansion, No. 3, 26-30.

$245 million growth program underway at Nekoosa Papers' Ashdown, Arkansas, mill, No. 3, 12-14.

Union Camp's $117 million improvement increases production by 200 tpd, (Robert Kirsch), No. 9, 19-21, 23-25.

Thompson, Larry L., No. 2, 39-44; No. 3, 21-25; No. 4,

19-23; No. 5, 20-22, 24; No. 6, 41-44; No. 7, 21-25.

Vaughn, William H., No. 7, 11, 15.

Vieceli, Louis, and Steinhauser, Larry, No. 10, 17-20, 22.

Wilhelm, Thomas P., No. 10, 24-26.

Witters, Glen, No. 4, 28-29.

Wuerl, Peter, No. 12, 20-21.

EDITORIALS

PIMA encourages management development for potential as well as current members, (Stanley Nickerson Marshall), No. 1, 48.

About the new magazine—from the publisher, (A. Stewart Hale), No. 2, 7.

Aux Armes Citoyens, (Foster P. Doane), No. 2, 73-76.

Thoughts on management, (E. A. Stafford), No. 3, 51-52.

For members only!, (George J. Calimafde), No. 4, 54.

Reality is only a word, (John A. Ball), No. 5, 52-54.

June graduation month, (introduction by A. Stewart Hale; text by Eric Walker), No. 6, 78.

PIMA's program for continuing education, (George J. Calimafde), No. 7, 58.

The modern "Little Red Hen", (introduction by Richard Violette), No. 8, 52.

RX: a healthy dose of letters, (Peter Wuerl), No. 9, 50.

Learning made easier, (Peter Wuerl), No. 10, 50.

Yes, Virginia, there is a Santa Claus, (introduction by Peter Wuerl), No. 12, 52.

ASSOCIATION NEWS

No. 1—Northeast PIMA has a "gangbuster", (D. L. Boutin), 34-36.

PIMA's MIS Group sets theme for 10th International MIS Conference, 30.

No. 2—An important message . . . to management information and systems personnel and users of data processing services, (Don Craig), 63.

Miami Valley's Fall Meeting focuses on customer relations, 61.

Mill tours will be featured at PIMA's International Management Conference, 67.

No. 3—Miami Valley Spring Meeting features GM tour, 39.

MIS broadens its meeting locations—first conference held on West Coast, 46-47.

10th anniversary annual MIS Conference and a short look at the year in review, (Richard E. Colburn), 37-38.

No. 4—Miami Valley braves snowstorm to carry on winter meeting, 36.

PIMA's 10th MIS Conference to be held this month . . ., 39-44, 46.

No. 5—A message to PIMA affiliates, (E. C. "Bud" Cowell), 38.

Mill tours to highlight Minneapolis conference, (Marta Archer), 46-47.

Southwestern Division wraps up State of the Arts series, (Richard Ingraham), 35-36.

Why not get involved at Minneapolis?, (Bruce W. Huston), 37.

No. 6—On site in Minneapolis, (JoAnne Burkart), 66.

North Central Spring Meeting includes maintenance subjects and mill tour, 62-63.

North Central, "the cradle of PIMA', (John L. Noonan), 58-61.

PIMA's MIS Group forms North Central Section, (Shirley Mueller), 64-65.

No. 7—PIMA's 10th Annual MIS Conference—programmed for results, (Marta Archer), 43-44.

The 1978 award winners, (Maria Archer), 42.

No. 8—New York/Canadian Division reports on Spring Meeting, 46.

Northeast holds one-day Spring Meeting, 44-45.

Pen-Jer-Del changes Spring Meeting format, 40-41.

PIMA conference emphasizes involvement, (JoAnne Burkart) 34-39.

No. 9—Connecticut Valley hosts 1978 Steak Roast, 40.

Pen-Jer-Del ready for conference; student grants to be given, (Joseph A. Paciello), 39.

No. 10—Ideas welcome at Northeast's meeting, 42.

"Managing in Inflation" to be held . . ., 41.

Southwestern members and ladies enchanted with special evening, (Richard Ingraham), 40.

No. 11—Connecticut Valley and New England TAPPI team up, 39.

Look to PIMA seminars for solving management problems, (Peter Wuerl), 42.

North Central speakers concentrate on areas of current interest, (Peter Wuerl), 38.
